Objective

Frontend-focused MERN developer skilled in building responsive, high-performance React applications with modern state management and optimized UX. Delivered production web apps with ~40% faster load times through optimization techniques. Eager to join a dynamic team as a Frontend Intern to build scalable features and grow under experienced engineers

Skills

- **Languages:** JavaScript (ES6+), Python, HTML5, CSS3
 - **Frontend:** React, Tailwind CSS, DOM Manipulation, Hooks
 - **Databases:** MongoDB, MySQL
 - **Tools & Deployment:** Git/GitHub, VS Code, Vercel, Render
-

Projects

[Movie / TV Show Search & Watchlist App](#)

- **Tech Stack:** React, React Hooks, Tailwind CSS, Public REST API (TMDB)
- Built a React application for searching movies and TV shows with real-time API integration
- Developed watchlist functionality with localStorage persistence
- Built reusable UI components for media cards, modals, and detail views
- Handled loading, error, and empty states for robust user experience

Flowpad– Kanban style todo

- Developed a web-based Kanban To-Do application to organize tasks across **To Do, In Progress, and Done** columns.
 - Implemented **drag-and-drop functionality** for moving tasks between columns.
 - Utilized **localStorage** to persist tasks, ensuring data remains across page reloads.
 - Built a **clean, responsive interface** with HTML, CSS, and vanilla JavaScript.
 - Gained hands-on experience in **DOM manipulation, event handling, and front-end state management**.
-

Experience

Freelance Frontend Developer — Self-Employed

July 2025 - Present

- Built and deployed production-ready web applications in custom domain
 - Improved average page load times by ~40% through asset optimization and lazy loading
 - Contributed to github open source projects
 - Integrated RESTful APIs and handled authentication flows
-

Education

Metropolitan College — Kathmandu, Nepal

Bachelor of Science in Computer Science and Information Technology (B.Sc. CSIT)

Stream: BSc CSIT

- Relevant Coursework: Data Structures, Database Systems, Web Technologies, Operating Systems, Software Engineering
-

Training & Certifications

- **System Design Fundamentals** — freeCodeCamp
- **Developing AI Applications with Flask** — IBM (Coursera)
- **Prompt Engineering for LLMs** — freeCodeCamp
- **Fundamentals of Cloud Computing** — 5Minutes Engineering (YouTube)

Languages

English (Proficient) | **Hindi** (Proficient) | **Nepali** (Native)
